

ASHOK MITHRA GADDAM

SOFTWARE ENGINEER

ashokmithra20@gmail.com | 9899336936

PROFESSIONAL SUMMARY

- Software Engineer with 2+ years of experience building end-to-end web experiences across React, Node, Express, Next.js, Typescript, Tailwind, REST APIs, PostgreSQL, and AWS RDS.
- Product-minded builder who can move quickly from backend services to CSS, shipping dashboard workflows, API features, analytics instrumentation, and intuitive AI-driven web app interfaces.
- Collaborates with ML, design, product, and business stakeholders to break down ambiguous problems, prioritize top-requested features, and deliver user-focused software in fast-paced environments.

TECHNICAL SKILLS

- **Technologies:** React, Node, Express, Next.js, Typescript, Tailwind, JavaScript, HTML, CSS, REST APIs
- **Databases/Cloud:** PostgreSQL, AWS RDS
- **Product/Engineering:** product analytics, dashboard development, chrome extensions, API development, end-to-end experiences, backend-to-CSS development
- **Tools/Practices:** Git, Agile, code reviews, debugging, cross-functional collaboration, early-stage startup execution

EXPERIENCE

Duke Energy, Charlotte, NC

August 2025 - Present

Software Engineer

- Build and deploy React, Node, Express, Typescript, and Tailwind dashboard features that turn complex operational workflows into intuitive, reusable product experiences.
- Develop PostgreSQL and AWS RDS-backed API services for reliable data access, product analytics, and integration-ready workflows across internal platforms.
- Partner with design, business, and engineering stakeholders to scope top-requested features, iterate from prototype to release, and improve usability through feedback-driven refinements.

Urban Company, Hyderabad

January 2023 - June 2024

Software Engineer

- Delivered customer-facing web features using React, Next.js, Node, Express, Typescript, and REST APIs, owning implementation from backend logic through polished CSS/Tailwind interfaces.
- Implemented PostgreSQL workflows, dashboard views, and usage tracking to support data-driven product decisions, feature prioritization, and faster release cycles.
- Worked across product, design, QA, and engineering to debug production issues, refine high-impact user journeys, and ship requested improvements in Agile sprints.

Henotic Technologies Pvt. Ltd, Hyderabad

July 2022 - December 2022

Software Engineer Intern

- Contributed to full-stack web modules by creating React components, Node/Express routes, SQL queries, and responsive CSS updates for application features.
- Supported API testing, bug fixes, code reviews, and UI refinements while learning rapid iteration, ownership, and collaboration in a startup-style engineering environment.

PROJECTS

- **AI Content Integrity Dashboard:** Built a Next.js, React, Tailwind prototype visualizing text-origin signals, review status, and API results.
- **Product Analytics Dashboard:** Created dashboard views for feature usage, user trends, and operational metrics, helping teams identify requested features and prioritize product improvements.

EDUCATION

Central Michigan University, Michigan

August 2024 - December 2025

Master of Science in Information Systems

SRKR Engineering College, Bhimavaram - India

August 2020 - May 2024

Bachelor of Technology in Computer Science
